

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

Form 10-Q

(Mark One)

QUARTERLY REPORT UNDER SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
For the quarterly period ended June 30, 2010

OR

TRANSITION REPORT UNDER SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
For the transition period from _____ to _____

COMMISSION FILE NUMBER 333-143761

3DICON CORPORATION

(Exact Name of small business issuer as specified in its charter)

Oklahoma
(State or other jurisdiction of
incorporation or organization)

73-1479206
(I.R.S. Employer
Identification No.)

6804 South Canton Avenue, Suite 150, Tulsa, Oklahoma 74136
(Address of principal executive offices) (Zip Code)

Issuer's Telephone Number: (918) 494-0505

Indicate by check mark whether the issuer (1) filed all reports required to be filed by Section 13 or 15(d) of the Exchange Act during the past 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definition of "large accelerated filer", "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer (do not
check if smaller reporting
company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).
Yes No

As of August 16, 2010, the issuer had 563,683,880 outstanding shares of Common Stock.

NOTES TO FINANCIAL STATEMENTS

**Six Months Ended June 30, 2010 and 2009 and period
From Inception (January 1, 2001) to June 30, 2010
(Unaudited)**

Note 1 – Uncertainties and Use of Estimates

Basis of Presentation

The accompanying financial statements of 3DIcon Corporation (the “Company”) have been prepared without audit pursuant to the rules and regulations of the Securities and Exchange Commission (“SEC”). Certain information and footnote disclosures normally included in the financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to such rules and regulations. The Company believes that the disclosures made are adequate to make the information presented not misleading. These financial statements should be read in conjunction with the Company's yearend audited financial statements and related footnotes included in the previously filed 10-K. In the opinion of management, all adjustments, consisting only of normal recurring adjustments, necessary to present fairly the financial position of the Company as of June 30, 2010, and the statements of its operations for the three and six months ended June 30, 2010, 2009 and the period from inception (January 1, 2001) to June 30, 2010, and cash flows for the six-month periods ended June 30, 2010 and 2009, and the period from inception (January 1, 2001) to June 30, 2010, have been included. The results of operations for interim periods may not be indicative of the results which may be realized for the full year.

Use of Estimates

The preparation of financial statements in conformity with U. S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, expenses and the disclosure of contingent assets and liabilities. Actual results could differ from the estimates and assumptions used.

Revenue Recognition

Revenues from software license fees are accounted for in accordance with Accounting Standards Codification (“ASC”) 985-650, “Software Revenue Recognition”. The Company recognizes revenue when (i) persuasive evidence of an arrangement exists; (ii) delivery has occurred or services have been rendered; (iii) the sales price is fixed or determinable; and (iv) collectability is reasonably assured.

Uncertainties

The accompanying financial statements have been prepared on a going concern basis. The Company is in the development stage and has insufficient revenue and capital commitments to fund the development of its planned product and to pay operating expenses. Additionally, the Company has been unable to meet its monthly payment obligations and has therefore been in default of the Sponsored Research Agreement (“SRA”) (see Note 3). A revised payment schedule was agreed to with the University of Oklahoma (“University”) in October 2008, March 2009, August 2009 and in February 2010. Failure of the Company to meet its revised payment obligations could result in the termination of the SRA and any outstanding license agreements under the SRA. The University immediately and without notice or opportunity to cure, may terminate any or all existing agreements between the parties, including but not limited to, the Exclusive License Agreement, the Facilities/Resources Use Agreement, and the SRAs. The termination of the license agreement with the University would forfeit the Company’s rights to any or all intellectual property licensed to it under the terminated license.

The Company has realized a cumulative net loss of \$13,437,691 for the period from inception (January 1, 2001) to June 30, 2010, and a net loss of \$1,566,835 for the year ended December 31, 2009.

The ability of the Company to continue as a going concern during the next year depends on the successful completion of the Company's capital raising efforts to fund the development of its planned products. The financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

Management plans to fund the future operations of the Company with existing cash, grants and investor funding. Under the terms of the Golden State debentures, Golden State may advance an additional \$378,787. The additional advance would be available if the Company filed a registration statement; however, the Company does not plan to file such registration statement. In addition, pursuant to the 4.75% Convertible Debenture due in 2011, beginning in November 2007, Golden State is obligated to submit conversion notices in an amount such that Golden State receives 1% of the outstanding shares of the Company every calendar quarter for a period of one year. In connection with each conversion, Golden State is expected to exercise warrants equal to 10 times the amount of principal converted. The warrants are exercisable at \$10.90 per share. The number of warrants exercisable is subject to certain beneficial ownership limitations contained in the 4.75% Debenture and the warrants ("the Beneficial Ownership Limitations"). The Beneficial Ownership Limitations prevent Golden State from converting on the 4.75% Debenture or exercising warrants if such conversion or exercise would cause Golden State's holdings to exceed 9.99% of the Company's issued and outstanding common stock. Subject to the Beneficial Ownership Limitations, Golden State is required to convert \$3,000 of the 4.75% Convertible Debenture and exercise 30,000 warrants per month. Based upon our current stock price, our issued and outstanding shares as of June 30, 2010 and ignoring the impact of the Beneficial Ownership Limitations, the Company may receive up to \$3,924,000 in funding from Golden State as a result of warrant exercises during the year ended December 31, 2010.

The Company was approved for a matching grant from Oklahoma Center for the Advancement of Science and Technology ("OCAST") on November 19, 2008 in the amount of approximately \$300,000. There remains \$236,096 of grant funds to be provided during 2010 and 2011. (see Note 4)

Additionally, the Company is continuing to pursue financing through private offering of debt or common stock.

Note 2 – Recent Accounting Pronouncements

The following are summaries of recent accounting pronouncements that are relevant to the Company:

In June 2009, the Financial Accounting Standards Board ("FASB") issued new guidance on the accounting for transfers of financial assets. The new guidance requires additional disclosures for transfers of financial assets, including securitization transactions, and any continuing exposure to the risks related to transferred financial assets. There is no longer a concept of a qualifying special-purpose entity, and the requirements for derecognizing financial assets have changed. The Company has adopted this new guidance as of January 1, 2010. The adoption of this new guidance did not have any impact on its financial statements.

In June 2009, the FASB issued new guidance on the accounting for variable interest entities. The new guidance requires an enterprise to perform an analysis to determine whether the enterprise's variable interest or interests give it a controlling financial interest in a variable interest entity; to require ongoing reassessments of whether an enterprise is the primary beneficiary of a variable interest entity; to eliminate the quantitative approach previously required for determining the primary beneficiary of a variable interest entity; to add an additional reconsideration event for determining whether an entity is a variable interest entity when any changes in facts and circumstances occur such that holders of the equity investment at risk, as a group, lose the power from voting rights or similar rights of those investments to direct the activities of the entity that most significantly impact the entity's economic performance; and to require enhanced disclosures that will provide users of financial statements with more transparent information about an enterprise's involvement in a variable interest entity. The Company has adopted this new guidance as of January 1, 2010. The adoption of this new guidance did not have any impact on its financial statements.

In January 2010, the FASB issued new guidance on improving disclosures about fair value measurements. The new guidance does not change how fair values are measured. The Company has adopted this new guidance as of January 1, 2010. The adoption of this new guidance did not have any impact on its financial statements.

Note 3 – Sponsored Research Agreement (SRA)

On April 20, 2004, the Company entered into a SRA entitled "Investigation of Emerging Digital Holography Technologies" ("Phase I") with the University of Oklahoma ("University"), which expired October 19, 2004. On July 15, 2005, the Company entered into a SRA with the University ("Phase II"), which expired January 14, 2007. Under this agreement the University conducted a research project entitled "Investigation of 3-Dimensional Display Technologies". The agreement was modified in November 2006 to provide additional funding, and extended the term of the agreement through March 31, 2009.

On February 23, 2007 the Company entered into a SRA with the University (“Phase III”) which expired March 31, 2010. Under this agreement the University conducted a research project entitled “3-Dimensional Display Development” that seeks to make significant progress in the development of 3-dimensional display technologies. The Company agreed to pay the University \$3,468,595 payable in monthly installments ranging from \$92,263 to \$112,777 beginning April 30, 2007 and ending March 31, 2010.

On October 31, 2008 the University agreed to revise the payment terms under the SRA from a fixed monthly payment to a reimbursable cost payment basis effective September 1, 2008. As of September 30, 2008 the Company had a remaining obligation under the previous SRA payment schedule of \$2,665,818 which included monthly payments due for December 2007 through August 31, 2008 of \$861,131. The \$1,804,687 balance of the remaining scheduled payment obligation was cancelled. Under the terms of the revised base payments schedule, the arrearages would be paid in nine monthly base installments from October 31, 2008 to June 30, 2009 of amounts ranging from \$35,000 to \$101,132 leaving a remaining balance after the base payments of \$290,000. In addition to the monthly base payments, the Company agreed to make additional payments on the \$861,131 arrearages based on a formula of 50% of funding in excess of \$120,000 plus the base monthly payment. Without additional payments, the remaining balance was \$290,000, which the University accepted 4,264,707 shares of the Company’s common stock based on the October 14, 2008 market price as reported on the OTC Bulletin Board of \$0.068 per share as payment on June 30, 2009. The Company has the option to repurchase the shares at market value, but not less than \$0.068 per share.

The Company was unable to meet the revised payment schedule and on May 18, 2009 the University agreed to revise the payment terms. Under the terms of the revised base payments schedule, the arrearages scheduled to be paid in nine monthly base installments from October 31, 2008 to June 30, 2009 of amounts ranging from \$35,000 to \$101,132 were deferred to a monthly payment schedule of July 2009 through February 2010.

On February 19, 2010 The University agreed to modify the repayment plan to retire the outstanding debt of \$525,481. Under the terms of the modified repayment plan the Company agreed to make payments to the University, not less than quarterly, in an amount equal to 22.5% of any funding received by the Company. Eligible funding shall include all revenues, investments in the Company, funding from current sources or other funding, provided, however, that grants or other similar funding with specific allocation to designated research and development projects shall be excluded from such calculation. The quarterly payments shall be made within thirty (30) days of the end of each calendar quarter. The first quarterly payment was due to the University on April 30, 2010. The Company shall provide its financial statements to the University upon completion and submission to the SEC at the end of each quarter. These repayment terms shall remain in effect until the outstanding debt is retired. The University has the right at its sole discretion to request an independent audit of the Company’s financial statement the cost of which shall be borne solely by the Company.

Should the Company fail to report revenue or fail to timely pay any of the quarterly amounts owed above, the University immediately and without notice or opportunity to cure, may terminate any or all existing agreements between the parties, including but not limited to, the Exclusive License Agreement, the Facilities/Resources Use Agreement, and the SRAs. The termination of the license agreement with the University would forfeit the Company’s rights to any or all intellectual property licensed to it under the terminated license.

During the periods ended June 30, 2010 and 2009, the Company charged operations \$26,043 and \$42,240, respectively, pursuant to the SRA. At June 30, 2010, the Company owed the University \$7,934 in aggregate monthly payments and \$485,649 on the arrearages under the revised payment terms.

Note 4 – OCAST Grant

The Oklahoma Center for the Advancement of Science and Technology approved the Company’s application for funding of a matching grant titled 800 Million Voxels Volumetric Display, on November 19, 2008. The two-year matching grant, totaling \$299,932, had a start date of January 1, 2009. The award is for a maximum of \$149,940 for 2009 and the remainder for 2010. The Company received \$28,765 and \$18,975 from the grant during the periods ended June 30, 2010 and 2009, and \$63,904 period to date. The Company received approval for our no cost extension request for the first year of the contract. With the new modification, the first year ends on August 31, 2010. Funding beyond August 31, 2010 is contingent upon satisfactory performance evaluation and the availability of funds.

Note 5 – Debentures Payable

Debentures payable consist of the following:

| | June 30, 2010 | December 31, 2009 |
|---------------------------------------|--------------------------|------------------------------|
| Senior Convertible Debentures: | | |
| 6.25% Debenture due 2010 | \$ 463,558 | \$ 463,558 |
| 4.75% Debenture due 2011 | 91,043 | 93,168 |
| 10.0% Debenture due 2010 | 100,703 | 100,703 |
| Total Debentures | 655,304 | 657,429 |
| Less - Current Maturities | (564,261) | (564,261) |
| Long-term Debentures | \$ 91,043 | \$ 93,168 |

6.25% Convertible Debenture due October 24, 2010

On November 21, 2007, the Company issued and sold a convertible note in the principal amount of \$1,250,000 to Golden State (the “Debenture”). Pursuant to the terms of the Debenture, Golden State may, at its election, convert all or a part of the Debenture into shares of the Company’s common stock at a conversion rate equal to the lesser of (i) \$2.00 or (ii) 90% of the average of the five lowest volume weighted average prices during the twenty trading days prior to Golden State’s election to convert, subject to adjustment as provided in the Debenture. In addition, pursuant to the terms of the Debenture, the Company agreed to file a registration statement covering the shares of common stock issuable upon conversion or redemption of the Debenture. The Company filed a registration statement covering the shares to be issued upon conversion of the Debenture. Included in the registration statement were 2.25 million shares issuable upon conversion of the balance of a previous Golden State debenture and 4.25 million shares issuable on this Debenture based on 2007 market prices and assuming full conversion of the convertible debentures. The registration statement became effective on January 4, 2008.

Golden State advanced \$125,000 on the \$1.25 million Debenture on November 9, 2007 and \$746,213 in January 2008 at which time the Company placed 7,961,783 shares of common stock in escrow to be released as debentures are converted. As of June 30, 2010, Golden State has funded an aggregate of \$871,213 on the Debenture. Golden State will be obligated to fund the Company for the remaining \$378,787 in principal on the Debenture upon the effectiveness of a registration statement underlying the remaining unfunded principal balance on the Debenture. At this time, the Company has not filed a registration statement. At various dates during 2008, \$292,611 of the Debenture was converted into 3,651,337 shares of common stock at prices ranging from \$0.05 to \$0.14 based on the formula in the convertible debenture. At various dates during 2009, \$115,043, of the Debenture was converted into 12,124,828 shares of common stock at prices ranging from \$0.007 to \$0.01 based on the formula in the convertible debenture. There was no debenture conversions during the six-month period ended June 30, 2010. Shares remaining in escrow and reported as outstanding at June 30, 2010 total 4,310,449.

The conversion price for the \$1.25 million Debenture is the lesser of (i) \$2.00 or (ii) 90% of the average of the five lowest volume weighted average prices during the twenty (20) trading days prior to the conversion. If Golden State elects to convert a portion of the debenture and, on the day that the election is made, the volume weighted average price is below \$0.75, the Company shall have the right to prepay that portion of the debenture that Golden State elected to convert, plus any accrued and unpaid interest, at 135% of such amount.

The Debenture is secured by the pledge of 11 million shares of common stock held by Martin Keating, the Chairman of the Company. In the event of default and the Company has not repaid all outstanding principal and accrued interest, along with liquidating damages of \$250,000 within one day of default, Golden State shall have the right to immediately sell the pledged shares in satisfaction of any amounts of principal and interest owing under the Second Debenture.

In addition to standard default provisions concerning timeliness of payments, delivery and notifications, the Second Debenture will be in default if the common stock of the Company trades at a price per share of \$0.21 or lower, regardless of whether the trading price subsequently is higher than \$0.21 per share. The trading price was at \$0.21 or lower on several occasions during and subsequent to the period ended June 30, 2010. On each of the occasions Golden State, by separate letter agreements, agreed that the occasions did not constitute a default and thereby waived the default provision for those occasions only. (See Note 10 - Subsequent Events)

4.75% Convertible Debenture due November 3, 2011

On November 3, 2006, the Company also issued to Golden State a 4.75% convertible debenture in a principal amount of \$100,000, due 2011, and warrants to buy 1,000,000 shares of the common stock at an exercise price of \$10.90 per share. Under the terms of the debenture, warrants are exercised in an amount equal to ten times the dollar amount of the debenture conversion. During 2009, Golden State converted \$3,510 of the \$100,000 debenture into 35,622,803 shares of common stock, exercised warrants to purchase 35,100 shares of common stock at \$10.90 per share and the Company received \$382,590 from the exercise of the warrants. During 2009 Golden State advanced \$240,000 against future exercises of warrants and applied \$4,181 of accrued interest due on the debenture to the advance account of which \$336,170 was applied to the exercise of warrants leaving \$48,511 of unapplied advances at December 31, 2009. During 2010, Golden State converted \$2,125 of the \$100,000 debenture into 67,766,343 shares of common stock, exercised warrants to purchase 21,250 shares of common stock at \$10.90 per share and advanced \$202,240 against future exercises of warrants of which \$231,625 was applied to the exercise of warrants leaving \$19,126 of unapplied advances at June 30, 2010.

The conversion price for the 4.75% \$100,000 convertible debenture is the lesser of (i) \$4.00 or (ii) 80% of the average of the five lowest volume weighted average prices during the twenty (20) trading days prior to the conversion. If Golden State elects to convert a portion of the debenture and, on the day that the election is made, the volume weighted average price is below \$0.75, the Company shall have the right to prepay that portion of the debenture that Golden State elected to convert, plus any accrued and unpaid interest, at 135% of such amount.

Newton, O'Connor, Turner & Ketchum 10% convertible debenture due September 30, 2010

On May 22, 2009, the Company issued to Newton, O'Connor, Turner & Ketchum, a professional corporation ("NOTK") and the legal counsel to the Company through 2008, a 10% convertible debenture in a principal amount of \$100,703, due September 30, 2009, and warrants to purchase 4,378,394 shares of the common stock at an exercise price of \$0.09 per share through September 30, 2010 and an exercise price of \$0.18 per share through September 30, 2014. The Company was indebted to NOTK for legal services performed for the Company and reimbursement of expenses in rendition of those services for the period ended December 31, 2008. The debenture and the warrants were issued in settlement of the indebtedness. The debentures and warrants were recorded at their pro rata fair values in relation to the proceeds received. The warrants were valued at \$13,504. The difference between the pro rata fair value and face value of the debenture was charged to operations in 2009.

The estimated fair value of the warrants was determined using the Black-Scholes option pricing model. The expected dividend yield of \$-0- is based on the average annual dividend yield as of the grant date. Expected volatility of 160.73% is based on the historical volatility of the stock since July 25, 2007, the day the Company began trading on the Over-The-Counter Bulletin Board. The risk-free interest rate of 2.23% is based on the U.S. Treasury Constant Maturity rates as of the grant date. The expected life of the warrant of two years is based on historical exercise behavior and expected future experience.

On June 30, 2010, Newton, O'Connor, Turner & Ketchum agreed to extend the March 31, 2010 due date of their 10% debenture to September 30, 2010 in consideration for two million five hundred thousand (2,500,000) shares of common stock. The shares, which were issued subsequent to June 30, 2010, will be valued at 50% of the average of the previous five day closing price on March 1, 2010, which was \$0.003 per share totaling \$7,500.

Note 6 – Common Stock and Paid-In Capital

Pursuant to a special meeting of the stockholders held on August 21, 2009, the stockholders approved the filing of an amendment to the Company's Articles of Incorporation to increase the Company's authorized shares of common stock from 250,000,000 shares, par value \$0.0002, to 750,000,000 shares, par value \$0.0002.

Pursuant to Subscription Agreements entered into during March and April 2009, the Company sold 999,999 shares of the Company's common stock at a per share price of \$.03 per share and warrants to purchase 500,000 shares of its common stock at a price of \$.10 per share from closing for a period of twelve months; \$.15 per share for the second subsequent twelve months or; \$.20 per share for the subsequent twelve months to three accredited individuals. The Company received \$30,000 in cash from the sale. The 500,000 warrants are valued at \$6,579 and the 999,999 shares are valued at \$23,421. The warrants terminate three years from date of issue in 2012.

The estimated fair value of the warrants was determined using the Black-Scholes option pricing model. The expected dividend yield of \$-0- is based on the average annual dividend yield as of the grant date. Expected volatility of 178% is based on the historical volatility of the stock since July 25, 2007, the day the Company began trading on the Over-the-counter Bulletin Board. The risk-free interest rate of 1.38% is based on the U.S. Treasury Constant Maturity rates as of the grant date. The expected life of the option of five years is based on historical exercise behavior and expected future experience.

On June 18, 2009 the Company entered into Subscription Agreements with two of its directors pursuant to which the two directors purchased 17,941,176 shares of the Company's common stock at a price per share equal to 50% of the average closing price during the five days prior to June 18, 2009 (0.0068 per share) for aggregate proceeds of \$122,000.

Pursuant to Subscription Agreements entered into during October and November 2009, the Company sold 1,666,666 shares of the Company's common stock at a per share price of \$.03 per share and warrants to purchase 16,666,666 shares of its common stock at a price of \$.10 per share from closing for a period of twelve months; \$.25 per share for the second subsequent twelve months and; \$.50 per share for the third subsequent twelve months to two accredited individuals. The Company received \$50,000 in cash from the sale. The 16,666,666 warrants are valued at \$35,225 and the 1,666,666 shares are valued at \$14,775. The warrants terminate three years from date of issue in 2012.

The estimated fair value of the warrants was determined using the Black-Scholes option pricing model. The expected dividend yield of \$-0- is based on the average annual dividend yield as of the grant date. Expected volatility of 178% is based on the historical volatility of the stock since July 25, 2007, the day the Company began trading on the Over-the-counter Bulletin Board. The risk-free interest rate of 1.38% is based on the U.S. Treasury Constant Maturity rates as of the grant date. The expected life of the warrants of five years is based on historical exercise behavior and expected future experience.

As of June 30, 2010, there are warrants outstanding to purchase 257,839 shares of common stock at a price of \$.25 per share from September 30, 2009 through August 31, 2010, warrants outstanding to purchase 500,000 shares of common stock at a price of \$.10 per share through various dates in March and April 2010; \$.15 per share through various dates in March and April 2011; or \$.20 per share that expire on various dates in March and April 2012, warrants to purchase 16,666,666 shares of its common stock at a price of \$.10 per share through November 2010; \$.25 per share through November 2011 and; \$.50 per share through November 2012 and, warrants to purchase 4,378,394 shares of common stock at a price of \$0.09 per share through September 30, 2010 and \$0.18 per share that expire on September 30, 2014. Additionally, Golden State has warrants outstanding to purchase 910,433 shares of common stock at a price of \$10.90 per share which expire November 2, 2011.

Options granted

Under the terms of an employment agreement dated July 28, 2008 with Dr. Hakki Refai (the "Employment Agreement") pursuant to which Dr. Refai agreed to serve as the Chief Technology Officer of the Company, Dr. Refai was granted 5,000,000 incentive stock options with a term of 10 years and an exercise price of \$0.085 per share which would vest over a period of time based upon certain technical achievements, product deliverables and milestones as provided in the Employment Agreement. On May 11, 2010 the Board of Directors of the Company agreed to immediately vest the options. The total value of the options was \$268,979 of which \$100,867 was charged to operations in 2008. The remaining value of \$168,112 was charged to operations in the second quarter of 2010.

The estimated fair market value of the options was determined using the Black-Scholes option pricing model. The expected dividend yield of \$-0- is based on the average annual dividend yield as of the grant date. Expected volatility of 95.50% is based on the historical volatility of the stock since July 25, 2007, the day the Company began trading on the Over-the-counter Bulletin Board. The risk-free interest rate of 2.0% is based on the U.S. Treasury Constant Maturity rates as of the grant date. The expected life of the option of five years is based on historical exercise behavior and expected future experience. (See also, Note 10)

The following summary reflects warrant and option activity for the period ended June 30, 2010:

| | <u>Attached Warrants</u> | <u>Golden State Warrants</u> | <u>Options</u> |
|--------------------------------------|------------------------------|----------------------------------|-------------------|
| Outstanding December 31, 2009 | 21,802,900 | 931,683 | 13,536,540 |
| Granted | - | - | - |
| Exercised | - | (21,250) | - |
| Cancelled | - | - | - |
| Outstanding June 30, 2010 | <u>21,802,900</u> | <u>910,433</u> | <u>13,536,540</u> |

Stock options are valued at the date of award, which does not precede the approval date, and compensation cost is recognized in the period the options are granted. Stock options generally become exercisable on the date of grant and expire based on the terms of each grant.

The estimated fair value of options for common stock granted was determined using the Black-Scholes option pricing model. The expected dividend yield is based on the average annual dividend yield as of the grant date. Expected volatility is based on the historical volatility of our stock. The risk-free interest rate is based on the U.S. Treasury Constant Maturity rates as of the grant date. The expected life of the option is based on historical exercise behavior and expected future experience.

Common stock issued for services

During the six-month periods ended June 30, 2010 and 2009 shares of common stock totaling 48,000,164 and 22,268,673 respectively were issued for consulting services for which the Company recognized \$113,025 and \$281,979 of expense respectively. Additionally, shares totaling 44,452,387 were issued to consultant for previous services provided to the Company for which the accounts payable liability was reduced by \$159,141.

Note 7 – Office Lease

The Company signed an Office Lease Agreement (the "Agreement") on April 24, 2008. The Agreement commences on June 1, 2008 and expires June 1, 2011. At June 30, 2010, minimum future lease payments to be paid annually under the three year non-cancellable operating lease for office space are as follows:

| | |
|--------------|------------------|
| 2010 | \$ 13,888 |
| 2011 | \$ 11,575 |
| Total | <u>\$ 25,463</u> |

Note 8 – Incentive Stock Plan

In September 2009 the Company established the 3DIcon Corporation 2009 Incentive Stock Plan (the "2009 Plan"). The total number of shares of stock which may be purchased or granted directly by options, stock awards or restricted stock purchase offers, or purchased indirectly through exercise of options granted under the 2009 Plan shall not exceed 50,737,115 shares. The shares are included in a registration statement filed September 23, 2009. Shares totaling 36,315,103 were issued from the Plan during the year ended December 31, 2009 for services rendered to the Company. Shares totaling 14,422,022 were issued from the amended 2009 Plan during the period ended June 30, 2010 for services rendered to the Company. There are currently no shares available for issuance under the 2009 Plan.

In February 2010 the Company established the 3DIcon Corporation 2010 Incentive Stock Plan (the "2010 Plan"). The total number of shares of stock which may be purchased or granted directly by options, stock awards or restricted stock purchase offers, or purchased indirectly through exercise of options granted under the 2010 Plan shall not exceed seventy-five million (75,000,000) shares. The shares are included in a registration statement filed February 26, 2010. Shares totaling 73,030,539 were issued from the 2010 Plan during the period ended June 30, 2010 for services rendered and to satisfy accounts payable to the Company. There are currently 1,969,461 shares available for issuance under the 2010 Plan.

In June 2010 the Company established the 3DIcon Corporation 2010 Equity Incentive Stock Plan (the "2010 EIP"). The total number of shares of stock which may be purchased or granted directly by options, stock awards or restricted stock purchase offers, or purchased indirectly through exercise of options granted under the 2010 EIP shall not exceed sixty million (60,000,000) shares. The shares are included in a registration statement filed June 24, 2010. There are currently 60,000,000 shares available for issuance under the 2010 EIP.

Note 9 – Related Party Transaction

3DIcon has engaged the law firm of Newton, O'Connor, Turner & Ketchum as its outside corporate counsel since 2005 and through 2008. John O'Connor, a director of 3DIcon, is the Chairman of Newton, O'Connor, Turner & Ketchum. During the periods ended June 30, 2010 and 2009, the Company incurred legal fees to Newton, O'Connor, Turner & Ketchum in the amount of \$7,568 and \$26,030 respectively.

Martin Keating, the Chairman and major shareholder, has advanced the company \$13,000 and is owed an additional \$15,301 in unreimbursed business expenses at June 30, 2010. Currently there are no specific terms for repayment. Additionally Mr. Keating and his wife, an employee of the Company are due accrued salaries totaling \$315,000.

Note 10 – Subsequent Events

Debentures payable

In accordance with the terms of the Second Debenture an event of default occurs if the common stock of the Company trades at a price per share of \$0.21 or lower. The trading price was at \$0.21 or lower on several occasions during the period ended June 30, 2010 and subsequent to June 30, 2010. On each of the occasions Golden State, by letter agreements, agreed that the occasions did not constitute a default and thereby waived the default provision for the occasions.

Subsequent to June 30, 2010 Golden State converted \$425 of the 4.75% convertible debenture into 19,994,642 shares of common stock at \$0.0002 per share and exercised 4,255 warrants at \$10.90 per share for \$46,380, and converted \$17,061 of accrued interest due on the convertible debenture and \$2,939 of the 6.25% convertible debenture into 7,142,857 common shares at \$0.0028 per share under the terms of the securities purchase agreements.

Common stock and paid in capital

Concordia was issued 9,905,660 shares of common stock in payment of \$15,750 for July services under the consulting agreement. Additionally common shares totaling 20,205,510 were issued to employees in payment of \$45,000 for services.

Newton, O'Connor, Turner & Ketchum was issued shares totaling 2,500,000 in consideration of extending the due date of the 10% convertible debenture due March 31, 2010 to September 30, 2010.

On July 1, 2010, the Company agreed to compensate its non-employee Board members with options to purchase registered stock of the corporation equaling the value of \$100,000 for each of the three non-employee Board members; using standard evaluation methods. The Board granted options to purchase an aggregate of 57,529,455 shares to its three non-employee Board members; the exercise price for each option is \$0.005 per share. The options expire at the end of ten years. The \$250,000 compensation (one Board member received one-half the amount due to his resignation in mid-year) is for services of the Board during the period ending December 31, 2010 and is deemed fully vested on the date of the grant. Operations were charged with \$125,000 for the period ended June 30, 2010 and \$62,500 will be charged to operations in the quarters ending September 30, 2010 and December 31, 2010.

The estimated fair market value of the options was determined using the Black-Scholes option pricing model. The expected dividend yield of \$-0- is based on the average annual dividend yield as of the grant date. Expected volatility of 133.46% is based on the historical volatility of the stock since July 25, 2007, the day the Company began trading on the Over-the-counter Bulletin Board. The risk-free interest rate of 1.43% is based on the U.S. Treasury Constant Maturity rates as of the grant date. The expected life of the option of five years is based on historical exercise behavior and expected future experience.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

Forward-Looking Statements

The information in this report contains forward-looking statements. All statements other than statements of historical fact made in this report are forward looking. In particular, the statements herein regarding industry prospects and future results of operations or financial position are forward-looking statements. These forward-looking statements can be identified by the use of words such as "believes," "estimates," "could," "possibly," "probably," "anticipates," "projects," "expects," "may," "will," or "should" or other variations or similar words. No assurances can be given that the future results anticipated by the forward-looking statements will be achieved. Forward-looking statements reflect management's current expectations and are inherently uncertain. Our actual results may differ significantly from management's expectations.

The following discussion and analysis should be read in conjunction with our financial statements, included herewith. This discussion should not be construed to imply that the results discussed herein will necessarily continue into the future, or that any conclusion reached herein will necessarily be indicative of actual operating results in the future. Such discussion represents only the best present assessment of our management.

Plan of Operation

Background:

The Company is engaged in the development of 360° volumetric imaging and display technology, specifically in the areas identified by the initial in-depth investigation conducted by the University. The identified areas are two major complementary areas of technology that comprise the spectrum of the solution and application (1) a means of recording 3D objects as digital holographic data elements (capture); and (2) a means of reconstructing and displaying the 3D images (display).

Based on the investigation as well as review of existing patents and technologies, it was concluded that the area of 3-D image capture and recording had multiple solutions and technologies that adequately served the market. Therefore our primary area of focus is to develop products and intellectual property in the reconstruction and display of 3D images where we see the most opportunity. We aim to establish strategic partnerships with the assignees or license holders of existing 3D recording technologies as well as integrate our technologies with existing solutions.

The existing products reviewed can generally be broken down into two broad categories: stereoscopic - those that use flat-panels to implement 3D displays on 2D screens, and those that implement volumetric 3D displays. The flat-panel approaches, as previously noted, do not support 3DIcon's planned embodiment of the technology. However, the application space of volumetric 3D displays supports the Company vision and appears to offer major opportunities for further technology development and creation of intellectual property through our staff and the University, to which 3DIcon will have exclusive rights.

The research team at the University and our Chief Technology Officer have been working to integrate open source image capture applications as well as to establish 3D image capture systems.

We continue to build intellectual property through our staff and the University, to which 3DIcon has exclusive rights and engage in product research and development both directly related to the display as well as by-product technologies.

The Oklahoma Center for the Advancement of Science and Technology approved the Company's application for funding of a matching grant titled 800 Million Voxels Volumetric Display, on November 19, 2008. The two-year matching grant, totaling \$299,932, has a start date of January 1, 2009. The award is for a maximum of \$149,940 for 2009 and the remainder for 2010. The Company received \$18,975 from the grant during 2009 and \$28,765 during the first six months of 2010. We received approval for our no cost extension request for the first year of the contract. With the new modification, the first year ends on August 31, 2010. Funding beyond August 31, 2010 is contingent upon satisfactory performance evaluation and the availability of funds.

Current Activities and Operations

Currently the Company is pursuing the research and development of volumetric 3-D display technology through the Sponsored Research Agreement (“SRA”) with the University and with Dr. Hakki Refai, the former chief researcher at the University, who joined the Company as our Chief Technology Officer in October 2008. Our efforts are focused on multiple technological approaches, two of which are being further developed into proof-of-concept demonstration systems:

Static Volume Display Technology: Also known as CSpace®™, 3DIcon has produced the first non-mechanical, 360-degree, multi-view, high-resolution volumetric display. A prototype was demonstrated during September 2008, when a 3D image was created within a proprietary volumetric media (also called projection space or image matrix). This technology incorporates existing and rapidly evolving image projection technologies, such as DLP®/DMD technology from Texas Instruments, allowing 3DIcon to pursue full-color, full-motion 3D visualization, in harmony with 3DIcon’s vision for product development.

Swept Volume Display Technology: Additional work on this particular approach has been deferred indefinitely because of the success and initial superiority of the CSpace®™ technology.

We have also released a software product called Pixel Precision™. The current version of the software is 2.0 that was released on February 12, 2009 to expand its capabilities and provide new compatibility with Texas Instrument’s newly released DLP® Discovery 4000 kits. We plan to continue to pursue this market and provide versions and variations of this software. The plans include enhancements to the functionality as well as variants to address additional opportunities.

We have signed a sales and distribution agreement with Digital Light Innovations (DLi) for the sales, marketing and first level support of the Pixel Precision™ software. Through DLi and its sub-distributors the software will be marketed in the United States as well as in Europe and Asia.

Progress on Research and Development Activities

The research team at OU filed two new patent applications in the first quarter of 2008 and converted one from a provisional to a utility filing.

Under the aegis of the SRA, the University has filed the following Patent Applications. The Utility Patents have been converted and consolidated from the previously filed Provisional Applications.

| <u>Description of Provisional Patent Application as Filed</u> | <u>Description of Utility Patent Application Filing (Combined)</u> | <u>Date of Filing</u> | <u>Granted U.S. Patent</u> | <u>European Pending Patent-Date of Filing</u> | <u>Japanese Pending Patent-Date of Filing</u> |
|---|--|-------------------------------|----------------------------|---|---|
| Swept Volume Display | Swept Volume Display | Filed by OU in September 2006 | | | |
| Colorful Translation Light Surface 3D Display | Light Surface Display for | Filed by OU in April 2007 | | April 2007 | April 2007 |
| Colorful Translation 3D Volumetric Display | Rendering Three-Dimensional Image (Combined) | | | | |
| 3D Light Surface Display | Volumetric Liquid Crystal Display for Rendering Three-Dimensional Image (Combined) | Filed by OU in April 2007 | May 2009 | | |
| Volumetric Liquid Crystal Display | | | | | |
| Computer System Interaction with DMD | Computer System Interaction with DMD | Filed by OU in January 2008 | | | |
| Virtual Moving Screen for Rendering Three Dimensional Image | Virtual moving screen for rendering a three-dimensional image | Filed by OU in January 2008 | | | |
| Optically Controlled Light Emitting...and System for Optically Written 2D and 3D Displays | Utility Patent Application to be filed | Filed by 3DIcon in April 2008 | | | |

Further, we are taking steps to explore areas that may be related to assist in the protection of intellectual property assets. In addition, we have begun the process of applying for trademarks related to our 3D technologies.

Our research and development objectives for the 2010 calendar year are as follows. The work will mainly be done by 3DIcon and researchers, faculty and selected graduate or doctoral level students at the University with oversight by 3DIcon personnel:

I. Static Volumetric Display (CSpace®™)

- Continue work on development of blue and red up-conversion materials.
- Synthesize near-transparent projection media suitable for dispersion of display materials.
- Investigate the use of additional technologies for development of image space that enhance the commercialization of the technology. Dr. Hakki Refai has begun collaboration with parties outside of the University to explore alternate material development strategies.
- Demonstrate improvements in optical properties for transparent projection materials. Static Volumetric Display and Nano-materials.
- Continue software development to enhance CSpace®™ with the capability of displaying near real time 3D images.
- Add gray-scale levels for the constructed 3D images by CSpace®™.

II. By-Product Technologies

- Continue to generate revenue from Pixel Precision™ the DMD Control Software for DMD Application development markets.
- Develop next generation of Pixel Precision™ software for controlling multiple DMDs as well as for controlling the next generation of the DMD-Discovery™ series.
- Release Pixel Precision™ Version 3.0 for the Discovery 4000 series (D4000). This will be done in the near future.
- Develop the new invention of 2D screen that can be optically driven if compared to the conventional electrically driven 2D screens.
-

III. New 3D Technologies

- Continue to pursue new 3D opportunities across a broad technological spectrum, with the ultimate goal of the creation of a “free space” 3D display (i.e., one without a visible containment vessel).

RESULTS OF OPERATIONS FOR THE THREE MONTHS ENDED JUNE 30, 2010 COMPARED TO THE THREE MONTHS ENDED JUNE 30, 2009

Revenue

The Company received \$18,487 from the OCAST grant during the three months ended June 30, 2010.

We have launched our first software product PixelPrecision™. We appointed Digital Light Innovations for the sales and distribution of this product in March 2008. There were \$4,300 and \$6,500 in sales of PixelPrecision™ during the three months ended June 30, 2010 and 2009.

We expect sales of Pixel Precision™ to the installed and active user base of the earlier D1100 and D3000 systems in the near term and as companion product sales to D4000 systems. We expect that the revenue from this product to contribute to the operating expenses (general and administrative, research and development, interest) but do not expect the revenue generated to cover the operating expenses.

Research and Development Expenses

Research and development expenses were \$246,090 for the three months ended June 30, 2010, as compared to \$70,044 for the three months ended June 30, 2009. The increase was a result of the cost of vesting of options to the Director of Technology, the SRA direct cost increasing and contracting with outside lab services regarding the development of the 3-D images.

General and Administrative Expenses

Our general and administrative expenses were \$303,029 for the three months ended June 30, 2010 as compared to \$241,382 for the three months ended June 30, 2009. The increase was mainly due to the accrual of directors' options in the amount of \$125,000 and decreases in various other administrative expenses.

Interest Expense

Interest expense for the three months ended June 30, 2010 was \$16,607 as compared to \$20,835 for the three months ended June 30, 2009, respectively. The change in interest expense resulted from decreases in the amounts outstanding on our convertible debentures and increased finance charges on accounts payable outstanding during the periods.

RESULTS OF OPERATIONS FOR THE SIX MONTHS ENDED JUNE 30, 2010 COMPARED TO THE SIX MONTHS ENDED JUNE 30, 2009

Revenue

The Company received \$28,765 from the OCAST grant during the six months ended June 30, 2010 as compared to \$18,975 for the six months ended June 30, 2009. The increase was due to additional expenditures under the grant.

We have launched our first software product PixelPrecision™. We appointed Digital Light Innovations for the sales and distribution of this product in March 2008. There were sales of \$4,300 of PixelPrecision™ during the six months ended June 30, 2010 as compared to \$6,500 for the six months ended June 30, 2009.

We expect sales of Pixel Precision™ to the installed and active user base of the earlier D1100 and D3000 systems in the near term and as companion product sales to D4000 systems. We expect that the revenue from this product to contribute to the operating expenses (general and administrative, research and development, interest) but do not expect the revenue generated to cover the operating expenses.

Research and Development Expenses

Research and development expenses were \$320,059 for the six months ended June 30, 2010, as compared to \$178,946 for the six months ended June 30, 2009. The increase was a result of the cost of vesting of options to the Director of Technology.

General and Administrative Expenses

Our general and administrative expenses were \$536,485 for the six months ended June 30, 2010 as compared to \$614,616 for the six months ended June 30, 2009. The decrease was mainly due to the cancelation of consultant contract and a reduction of legal fees incurred.

Interest Expense

Interest expense for the six months ended June 30, 2010 was \$37,298 as compared to \$41,437 for the six months ended June 30, 2009, respectively. The change in interest expense resulted from decreases in the amounts outstanding on our convertible debentures and increased finance charges on accounts payable outstanding during the periods.

Financial Condition, Liquidity and Capital Resources

Management remains focused on controlling cash expenses. We recognize our limited cash resources and plan our expenses accordingly. We intend to leverage stock-for-services wherever possible. The operating budget consists of the following expenses:

- Research and development expenses pursuant to our Sponsored Research Agreement with the University of Oklahoma. This includes development of an initial demonstrable prototype and a second prototype for static volume technology
- Acceleration of R&D increased research personnel as well as other research agencies
- General and administrative expenses: salaries, insurance, investor related expenses, rent, travel, website, etc.
- Hiring executive officers for technology, operations and finance
- Development, support and operational costs related to Pixel Precision™ software
- Professional fees for accounting and audit; legal services for securities and financing; patent research and protection

Our independent registered public accountants, in their audit report accompanying our financial statements for the year ended December 31, 2009, expressed substantial doubt about our ability to continue as a going concern due to our status as a development stage organization with insufficient revenues to fund development and operating expenses.

We had net cash of \$1,557 at June 30, 2010.

We had negative working capital of \$1,795,718 at June 30, 2010.

During the six months ended June 30, 2010, we used \$201,801 of cash for operating activities, an increase of \$10,130 or 5% compared to the six months ended June 30, 2009. The increase in the use of cash for operating activities was a result of a reduction in the accounts payable.

We did not use cash in investing activities during the six months ended June 30, 2010 and 2009.

Cash provided by financing activities during the six months ended June 30, 2010 was \$202,240 a decrease of \$39,581 or 16% compared to the six months ended June 30, 2009. The decrease was the result of the decreased debenture conversions and related warrant exercise in 2010.

We expect to fund the ongoing operations through the existing financing in place and the OCAST grant (see below); through raising additional funds as permitted by the terms of Golden State financing as well as reducing our monthly expenses.

Our ability to fund the operations of the Company is highly dependent on the underlying stock price of the Company. As a result of our stock price being around the 52 week low mark and trending downward, our ability to raise cash is currently restricted.

Pursuant to the 4.75% Convertible Debenture due in 2011, beginning in November 2007, Golden State is obligated to submit conversion notices in an amount such that Golden State receives 1% of the outstanding shares of the Company every calendar quarter for a period of one year. In connection with each conversion, Golden State is expected to exercise warrants equal to ten times the amount of principal converted. The warrants are exercisable at \$10.90 per share. Beginning in November 2008, Golden State is required to convert \$3,000 of the 4.75% Convertible Debenture and exercise 30,000 warrants per month. During the six months ended June 30, 2010, Golden State converted \$2,125 of the \$100,000 debenture into 67,766,343 shares of common stock, exercised warrants to purchase 21,250 shares of common stock at \$10.90 per share and advanced \$202,240 against future exercises of warrants of which \$231,625 was applied to the exercise of warrants leaving \$19,126 of unapplied advances at June 30, 2010.

On November 19, 2008, we received a research grant from OCAST titled the "800 Million Voxels Volumetric Display." The two-year matching grant totals \$299,932. The award is for a maximum of \$149,940 for the calendar year 2009 and the remainder for calendar year 2010. Funding of the 2009 amount is contingent upon the Company providing matching funds for the first year's research and submission of all required documentation to OCAST. We received approval for our no cost extension request for the first year of the contract. With the new modification, the first year ends on August 31, 2010. We received \$28,765 in funding during the period ended June 30, 2010. Funding beyond 2010 is contingent upon satisfactory performance evaluation and the availability of funds.

The Company was unable to meet its monthly payment obligations under the SRA and received notification from the University that they were in default. A new payment schedule was negotiated. Failure of the Company to meet its payment obligations under the new payment schedule could result in the termination of the SRA, termination of the related projects and termination of any outstanding license agreements under the SRA.

On October 31, 2008 the University agreed to revise the payment terms under the SRA from a fixed monthly payment to a reimbursable cost payment basis effective September 1, 2008. As of September 30, 2008 the Company had a remaining obligation under the previous SRA payment schedule of \$2,665,818 which includes monthly payments due for December 2007 through August 31, 2008 of \$861,131. The \$1,804,687 balance of the remaining scheduled payment obligation was cancelled. Under the terms of the revised base payments schedule, the arrearages would be paid in nine monthly base installments from October 31, 2008 to June 30, 2009 of amounts ranging from \$35,000 to \$101,132 leaving a remaining balance after the base payments of \$290,000. In addition to the monthly base payments, the Company agreed to make additional payments on the \$861,131 arrearages based on a formula of 50% of funding in excess \$120,000 plus the base monthly payment. In the event funding does not provide for any additional payments, the remaining balance would be \$290,000, which the University agreed to accept 4,264,707 shares of the Company's common stock based on the October 14, 2008 market price as reported on the OTC Bulletin Board of \$0.068 per share as payment on June 30, 2009. The Company has the option to repurchase the shares at market value, but not less than \$0.068 per share.

The Company was unable to meet the revised payment schedule and on May 18, 2009 the University agreed to revise the payment terms. Under the terms of the revised base payments schedule, the arrearages scheduled to be paid in nine monthly base installments from October 31, 2008 to June 30, 2009 of amounts ranging from \$35,000 to \$101,132 were deferred to a monthly payment schedule of July 2009 through February 2010. On February 19, 2010 the University agreed to modify the repayment plan to retire the outstanding debt of \$525,481. Under the terms of the modified repayment plan the Company agreed to make payments to the University, not less than quarterly, in an amount equal to 22.5% of any funding received by the Company. Eligible funding shall include all revenues, investments in the Company, funding from current sources or other funding, provided, however, that grants or other similar funding with specific allocation to designated research and development projects shall be excluded from such calculation. The quarterly payments shall be made within thirty (30) days of the end of each calendar quarter. The first quarterly payment was due to the University on April 30, 2010 and was paid May 19, 2010. The Company shall provide its financial statements to the University upon completion and submission to the SEC at the end of each quarter. These repayment terms shall remain in effect until the outstanding debt is retired. The University has the right at its sole discretion to request an independent audit of the Company's financial statements the cost of which shall be borne solely by the Company.

In addition management put forward a proposal to the Board to reduce operating expenses further through temporary salary cuts, partial payments to consultants using stock and reduction in day-to-day expenses. This, along with other measures, has reduced our current cash flow burn rate from \$267,000 per month to an estimated amount of \$130,000 to \$150,000 per month.

We also intend to raise additional funds as permitted by the terms of Golden State financing, to help with the short term capital needs.

Off Balance Sheet Arrangements

3DIcon does not engage in any off balance sheet arrangements that are reasonably likely to have a current or future effect on our financial condition, revenues, and results of operations, liquidity or capital expenditures.

Significant Accounting Policies

Research and Development Costs

Accounting Standards Codification (“ACS”) No. 730, “*Research and Development*,” requires that all research and development costs be expensed as incurred. Until we have developed a commercial product, all costs incurred in connection with the Sponsored Research Agreement with the University of Oklahoma, as well as all other research and development costs incurred, will be expensed. After a commercial product has been developed, we will report costs incurred in producing products for sale as assets, but we will continue to expense costs incurred for further product research and development activities.

Stock-Based Compensation

Since its inception 3DIcon has used its common stock or warrants to purchase its common stock as a means of compensating our employees and consultants. ACS No. 718 “*Compensation- Stock Compensation*” requires us to estimate the value of securities used for compensation and to charge such amounts to expense over the periods benefited.

The estimated fair value at date of grant of options for our common stock is estimated using the Black-Scholes option pricing model, as follows:

The expected dividend yield is based on the average annual dividend yield as of the grant date. Expected volatility is based on the historical volatility of our stock. The risk-free interest rate is based on the U.S. Treasury Constant Maturity rates as of the grant date. The expected life of the option is based on historical exercise behavior and expected future experience.

Debentures payable

In accordance with the terms of the Second Debenture an event of default occurs if the common stock of the Company trades at a price per share of \$0.21 or lower. The trading price was at \$0.21 or lower on several occasions during the six months ended June 30, 2010. On each of the occasions Golden State, by separate letter agreements, agreed that the occasions did not constitute a default and thereby waived the default provision for the occasions.

During the six months ended June 30, 2010, Golden State converted \$2,125 of the \$100,000 debenture into 67,766,343 shares of common stock, exercised warrants to purchase 21,250 shares of common stock at \$10.90 per share and advanced \$202,240 against future exercises of warrants of which \$231,625 was applied to the exercise of warrants leaving \$19,126 of unapplied advances at June 30, 2010.

Common stock and paid-in-capital

During the six- month periods ended June 30, 2010 and 2009 shares of common stock totaling 48,000,164 and 22,268,673 respectively were issued for consulting services for which the Company recognized \$113,025 and \$281,979 of expense respectively. Additionally, shares totaling 44,452,387 were issued to consultant for previous services provided to the Company for which the accounts payable liability was reduced by \$159,141.

Under the terms of an employment agreement dated July 28, 2008 with Dr. Hakki Refai (the “Employment Agreement”) pursuant to which Dr. Refai agreed to serve as the Chief Technology Officer of the Company, Dr. Refai was granted 5,000,000 incentive stock options with a term of 10 years and an exercise price of \$0.085 per share which would vest over a period of time based upon certain technical achievements, product deliverables and milestones as provided in the Employment Agreement. On May 11, 2010 the Board of Directors of the Company agreed to immediately vest the options. The total value of the options was \$268,979 of which \$100,867 was charged to operations in 2008. The remaining value of \$168,112 was charged to operations in the second quarter of 2010.

The estimated fair market value of the options was determined using the Black-Scholes option pricing model. The expected dividend yield of \$-0- is based on the average annual dividend yield as of the grant date. Expected volatility of 95.50% is based on the historical volatility of the stock since July 25, 2007, the day the Company began trading on the Over-the-counter Bulletin Board. The risk-free interest rate of 2.0% is based on the U.S. Treasury Constant Maturity rates as of the grant date. The expected life of the option of five years is based on historical exercise behavior and expected future experience.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

N/A

ITEM 4T. CONTROLS AND PROCEDURES.

Evaluation of Disclosure Controls and Procedures. Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act") as of the end of the period covered by this report. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures as of the end of the period covered by this report were effective such that the information required to be disclosed by us in reports filed under the Securities Exchange Act of 1934 is (i) recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and (ii) accumulated and communicated to our management to allow timely decisions regarding disclosure. A controls system cannot provide absolute assurance, however, that the objectives of the controls system are met, and no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within a company have been detected.

Changes in Internal Control Over Financial Reporting. During the most recent quarter ended June 30, 2010, there has been no change in our internal control over financial reporting (as defined in Rule 13a-15(f) and 15d-15(f) under the Exchange Act) that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II

ITEM 1. LEGAL PROCEEDINGS.

We are not a party to any pending legal proceeding, nor is our property the subject of a pending legal proceeding, that is not in the ordinary course of business or otherwise material to the financial condition of our business. None of our directors, officers or affiliates is involved in a proceeding adverse to our business or has a material interest adverse to our business.

ITEM 1A. RISK FACTORS.

N/A

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

Newton, O'Connor, Turner & Ketchum, our legal counsel through 2008, was issued 2,500,000 shares of common stock in consideration of extending their 10% convertible due date from December 31, 2009 to September 30, 2010.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES.

3DICON CORPORATION

/s/ Martin Keating

Martin Keating
Chief Executive Officer, Acting Chief Financial
Officer and Director (Principal Executive Officer,
Principal Accounting Officer and
Principal Financial Officer)

**CERTIFICATION OF PRINCIPAL EXECUTIVE OFFICER AND PRINCIPAL FINANCIAL OFFICER
PURSUANT TO SECTION 302 OF THE
SARBANES-OXLEY ACT OF 2002**

I, Martin Keating, certify that:

1. I have reviewed this quarterly report on Form 10-Q of 3DIcon Corporation.
2. Based on my knowledge, this quarterly report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this quarterly report;
3. Based on my knowledge, the financial statements, and other financial information included in this quarterly report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this quarterly report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal controls over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this quarterly report is being prepared;
 - b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation;
 - d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting;
5. I have disclosed, based on my most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent function):
 - a) all significant deficiencies and material weaknesses in the design or operation of internal controls over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial data; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls over financial reporting.

Exhibit 32.1

CERTIFICATION PURSUANT TO
18 U.S.C. SECTION 1350,
AS ADOPTED PURSUANT TO
SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002

In connection with the Quarterly Report of 3DIcon Corporation (the "Company") on Form 10-Q for the quarter ended June 30, 2010 as filed with the Securities and Exchange Commission on the date hereof (the "Report"), I, Martin Keating, Chief Executive Officer and Chief Financial Officer of the Company, certify, pursuant to 18 U.S.C. section 1350 of the Sarbanes-Oxley Act of 2002, that:

- (1) The Report fully complies with the requirements of section 13(a) or 15(d) of the Securities Exchange Act of 1934; and
- (2) The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.

The foregoing certification is being furnished solely to accompany the Report pursuant to 18 U.S.C. section 1350 and is not being filed for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, and is not to be incorporated by reference into any filing of the Company, whether made before or after the date hereof, regardless of any general incorporation language in such filing.
